

BRIGHTEN UP YOUR SMALL SPACE with “Minieaux”

AMY YEASEUL KWON

In today's world with the population on an ever increasing rise in limited urban area, space becomes premium. This continues to fuel high-rise dwellings to meet the people's needs. In these tiny places where less than 700 sq ft. in average, one of the biggest challenges is storage. There is no place to organize and hide the mess within a small space. As combining half-sized washer with a new direction of differentiated storage for dirty clothes and laundry products, this will provide a solution for more adaptability to changing lifestyle and spatial availabilities for small space living.

SMALL BUT, SUBSTANTIAL...

The condominium dwellers where most occupied with single household do not have much laundry to do, but everyone possess all laundry products including the huge and bulky traditional washer, ugly laundry hamper, and detergent jars, that takes up too much spaces in such small space living. Nevertheless, with “Washing Box”, half-sized traditional washer-dryer with a storage where you can hide your pile of dirty clothes and huge detergent jars beside. This allows the users to use the small space efficiently while slim design that could enhance hidden places as well. The users will experience better laundry process.
